Community service is an integral part of the education of our nation's youth. Through service to others, students improve their self-esteem, develop a sense of responsibility, and develop sensitivity to the needs of others and the community. Community Service is giving back to society. It is helping others.

Community service hours must be performed solely by the student and may be performed at any of the following: (1) a non-profit organization, (2) a government agency, (2) a school, (3) a hospital, (4) a retirement organization or home, or (5) for a disabled or elderly individual in need of assistance. See your counselor for additional organizations and agencies that typically welcome volunteers. **Students may not receive community service hours for work on an individual's political campaign or for volunteering in a relative's business and may not receive any compensation such as money, gifts or other benefits for their service.** The school must approve and verify that the student's community service complies with these requirements.
